14. (Confidential - JGO) In meeting with Jim Kronfeld, on the staff of the House Subcommittee on Foreign Operations and Government Information, Kronfeld gave me a copy of a personal letter from R. W. Koch of Long Beach, California, inquiring about various activities of OSS in Europe and asking whether any of the information is now available under the Freedom of Information Law. The letter quotes that the files dealing with this wartime mission are in the hands of CIA. Kronfeld asked if I could check it informally and, depending on the answer, will see where we go from there. [] has been advised.

15. (Unclassified - LLM) Yesterday met with Mark Bender, on the Editorial Staff, and Wayne Kelly, Managing Editor, of "Congressional Quarterly" concerning the questions they wanted answered by CIA in connection with an upcoming special report on CIA in the intelligence community. (See Memorandum for the Record, 5 November)
